nowledge about the Subject Matter)+ (Apply Technical Skills and modern tool in work place)+(Comply with safety norms and guidelines)+(Demonstrate written and oral communication skill)+(Demonstrate ability to work independently and as a part of team)+(Demonstrate lifelong learning and Self Improvement)*(30/18)]+(Quality of Report Writing & Pres

OutCome:						
Major Project-I provides an important foundation for the successful completion of the final-year engineering project. It enables students to identify and analyse real-world engineering problems, conduct literature surveys, formulate suitable methodologies, and apply engineering knowledge to develop feasible solutions. The project enhances students' technical, analytical, design, teamwork, communication, and project-management skills. It also promotes consideration of sustainability, safety, ethics, cost, and societal requirements in engineering decision-making.						

Impact:

- Enhances practical application of theoretical knowledge.
- Improves problem-solving and analytical thinking abilities.
- Develops design and innovation capabilities.
- Exposure to real-world engineering problems and industrial practices.
- Improves teamwork, leadership, and interpersonal skills.
- Strengthens technical communication and presentation skills.
- Understanding of project planning, cost estimation, scheduling, and resource management.
- Encourages students to use modern engineering tools and technologies.

9 Builds confidence for undertaking Major Project-II, internships, higher studies, research					
10 Develops the ability to work independently and promotes lifelong learning					
Conclusion:					
Students become better prepared for Project, industry, research, higher studies and entrepreneurship
